We provide OEM& ODM services for our Home Energy Storage, including customized battery pack and Active Balance BMS nameplates, as well as carton and wooden box options.

Peak shaving and valley filling: by charging and storing energy at valley time and discharging energy at peak time, the electricity cost of customers can be reduced and the electricity charge at the power ...

20-120kWh Scalable Battery Storage System for Energy Backup. This Battery Storage System provides reliable backup and solar storage. It supports energy needs from 20kWh up to 120kWh. Built with ...

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Ideal for home, commercial, and utility backup power, this modern system combines high energy and power density with a long lifespan. Its modular design allows for easy installation and expansion, ...

Built with advanced LiFePO4 (LFP) technology, the GSL HV-R series ensures superior safety, long cycle life, and high energy density, offering a dependable power solution for enterprises ...

Our lithium battery cells come from first-line manufacturers, including CATL, BYD, EVE and other brands. All batteries are of A+ quality to ensure that the product quality can meet the requirements of ...

120kWh Lithium Battery Energy Storage Cabinet for Hospitals

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...
