BEIJING, Jan. 5 -- China's Yangtze River Economic Belt, a pivotal economic powerhouse, has seen its regional GDP more than double in the course of the past decade, while steering toward a new path that prioritizes ecological protection and green growth.

How many axis does the Yangtze River economic belt have?

In September 2016, the Guidelines on Building the Economic Development Belt along the Yangtze River was officially issued, establishing a new development pattern of "one axis, two wings, three poles, and multiple points" for the Yangtze River Economic Belt.

How can the Yangtze River basin meet its 2025 environmental targets?

and reducing nitrogen oxide emissions. Adopting these cleaner shipswill assist the Yangtze River Basin in meeting its 2025 environmental targets: reducing PM2.5 concentration in cities at the prefectural level and above by 10% relative to 2020 and cutting total nitrogen oxid

How many inland shipping companies are there in the Yangtze River?

nted Industry with Poor Profitability 09As of the end of 2021, there were 3,727 transportation enterprises and 9,858individually owned inland shipping companies in the Yangtze River system, among which, more than 700 enterprises are registered in Jiangsu and Anhui provinces, and over 6,000 individually owned inland shi

Ten years on, the initiative stands at a new historical juncture. As it moves toward the 15th Five-Year Plan period, the emphasis has shifted from growing faster to growing better, with new ...

In a study of the Yangtze River Economic Belt (YREB), the TOPSIS and the "Barrier Factor Diagnostic" were used to measure the emission reduction capacities of provinces and cities (Tang, Zhang & ...

Intensive campaigns to control illegal wharves and sand mining along the main river of the Yangtze River, special campaigns to control chemical pollution in the Yangtze Economic Belt, and ...

The economic belt currently contributes 47.3 percent of the national economic output, up from 42.2 percent

2MW Data Center Battery Cabinet in the Yangtze River Economic Belt

ten years ago, and has significantly boosted the share of sections with good water ...

This study aims to explore the impact of digital technology innovation on energy efficiency and energy intensity, and further provide new insights for addressing emerging challenges ...

The first phase of what will be the biggest data center in Central China was put into operation on Nov 30, providing secure and efficient data storage and a capacity for calculation for the ...

This appendix documents work completed on project benefits for the Yangtze River Economic Belt Jiangxi Ecological Civilization and Circular Economy Project. The work was undertaken to provide a ...

Will car sharing dominate the future of shared mobility?

The Yangtze corridor is emerging as the world's largest clean-energy trade route, powered by HVDC, solar, and battery-electric vessels.

ransition and promoting economic growth. As a result, "Yangtze River Three Gorges No. 1", the world's largest pure electric cruise ship, made its maiden voyage in March 2022 and the world's first 700 ...
