Where can I buy a server rack & cabinet?

Cabling's range of floor standing and wall mount server racks & cabinets offer unprecedented value for money and quality. We stock server racks and server cabinets to suit every installation scenario, whether it is a small freestanding or wall hung server rack to a full-blown state-of-the-art sophisticated server room.

What is a wall mount server rack?

Wall mount server racks are ideal for hosting network equipment, including switches, patch panels, and compact servers. They are a practical solution for spaces where floor-standing racks aren't feasible, such as offices, classrooms, and retail establishments. Easy Access: Hinged Server Racks

What is a hinged server rack?

This feature significantly simplifies access to the back of your mounted equipment, facilitating easy maintenance and equipment inspections. Generally wall-mounted, hinged server racks can also come in range of sizes from 9RU to 18RU. They are especially beneficial in scenarios requiring regular equipment maintenance and adjustments.

Why should you choose a server rack?

As such the server rack plays a vital role in the functionality of any data centre. Key considerations in selecting the ideal server rack are to maximise space, facilitate ease of maintenance, accommodate future growth, and ensure equipment security and functionality.

Sturdy and durable, this IT rack can support heavy equipment, even in transit. Integrated cable managers and brush strips organize cords and keep airflow clear and efficient.
