-----  
Why do you need a telecommunications cabinet?

Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability.

What are exterior telecommunications cabinets?

Exterior telecommunications cabinets are designed to meet the challenges of the telco sector by providing lightweight, safe, and highly durable solutions. Our telecommunications cabinets have become an essential component in the energy sector, particularly in solar and wind power installations.

Who are the leading data center operators in Spain?

Merlin Properties, Digital Realty, Nabiax, and Equinix are some of the leading data center operators in Spain. The region is seeing strong investor interest, supported by Spain's strategic location, fiber connectivity, and supportive government policies.

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.
