With the use of a Delta rPDU, energy flows steadily to every device inside a rack cabinet. Protection, optimized power distribution, and intelligent management begin with Delta rPDUs for your data center.

Switched power distribution unit for data centers. 60kW smart PDU with rack mount compatibility.

Designed to increase flexibility and agility of data center power distribution through a design that does not require a raised floor.

This 60kW unit offers flexibility through circuit breaker distribution, customizable alarm thresholds, and step-down transformer support. Its xmerless (transformer-free) design supports system mobility and ...

APC Basic Rack PDUs provide reliable rack power distribution via a single input with multiple output receptacles and distributes power from low amperage single phase circuits to higher-power 3-phase ...

Increasing rack power density both in the data center and at the network edge means that reliable power distribution is crucial. Our innovative power distribution units and rack PDUs not only maintain power, ...

InfraStruXure 60KW PDU is Designed to increase flexibility and agility of data center power distribution through a design that does not require a raised floor.Simplifies installation and maintenance while ...

Distributor of Advanced Energy Ascent AMS 60kW DC Power System (120A, 1000V, 60kW) EPCOS, Advanced Energy. Call for best price.

From high-tech startups to hyperscale critical facilities, they are regarded as the standard in powering, monitoring, and managing critical infrastructure. Supported by a global supply chain, we deliver best ...

Output power levels cover 30kW, 45kW, 60kW and 90kW in a 23U Rack System profile, offer low-noise

60kW Communication Power Supply Rack Distributor

performance and have Output voltage ratings from 10V to 1500V (and Output current ratings up to ...
