What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What is a mission-critical battery & data center uninterruptible power supply (UPS)?

A mission-critical battery & data center uninterruptible power supply (UPS) is a high-caliber power protection solution designed to support critical applications. C&D Technologies delivers cutting-edge, tailored solutions backed by advanced technology for end users, OEMs, and system integrators.

Who makes battery cabinets?

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs. Because every facility's power requirements are unique, we can help tailor the number of cabinets, capacity, and layout to meet your space and runtime objectives.

C&D provides data center UPS battery solutions to end users, OEM equipment providers, data centers, and system integrators.

If you're a supplier, trader, wholesaler, retailer, or looking for reliable OEM/ODM services, please contact us. We offer you competitive prices, customized solutions, and professional after-sales support. Now ...

Designed by data center experts for data center users, the Vertiv(TM) HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, ...

After-sales service for 120kWh data center battery cabinet

Our team of experts can help you configure your cabinet solution based on your unique needs. You can purchase both batteries and cabinets in a single purchase order.

20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

With advanced BMS intelligence for precise State of Charge and State of Health tracking, EnergyCore cabinets simplify installation, reduce maintenance, and optimize runtime.

Our team can assist you in identifying the correct cabinet model, battery type, and configuration to ensure reliable integration with your UPS system and long-term performance for your facility.
