Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

Why do I need a telecommunications cabinet?

These cabinets also make it easy for technicians to reach the ports they need to expedite service. Patch panels: If your telecommunications system incorporates patch panels to connect and manage your incoming network cables, you can keep them safely stored in your cabinet.

Purcell Systems specifically addresses operators and service providers' needs for durable equipment enclosures and modular cabinets, indoors and outdoors.
