Finnish energy giant Wärtsilä; has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record-breaking 1.5 GWh...

Australia is leading the global battery storage boom with AUD 2.4B invested in Q1 2025. Discover how big batteries are replacing coal, stabilizing the grid, and driving the nation's clean ...

EnergyAustralia, a subsidiary of Hong Kong-headquartered China Light & Power, has a portfolio of energy resources that includes gas peaker plants, coal as well as two of Australia's first ...

The Snowy 2.0 Pumped Storage Power Station - simply known as Snowy 2.0 - is a giant power generation project in Australia that is designed to supply 2.2 gigawatts of capacity and 350,000...

Ampyr has chosen to build the grid-forming BESS at the new location to capitalise on pre-existing substation infrastructure and minimize community impacts. On construction completion ...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, impressive capacity.

Since then, investment in grid-scale battery energy storage in Australia's National Electricity Market - or NEM - has continued. 25 projects are now commercially operational in the NEM, totalling just under 2 ...

Technology group Wärtsilä; said the company will deliver the largest DC-coupled hybrid battery energy storage system (BESS) in the National Electricity Market (NEM) in Australia, reflecting ...

Discover the largest upcoming BESS projects in Australia, from the 2.4GW Denman Battery to the Waratah Super Battery.

Technology group Wärtsilä; will deliver a 100 MW / 223 MWh battery energy storage system

Australian energy storage power station

(BESS) for innovative Australian renewable energy retailer, Flow Power.
