What is the best portable solar charger for outdoor adventures?

The best portable solar chargers for outdoor adventures feature the BigBlue 28W USB Solar Charger as our overall winner, delivering reliable power for camping, backpacking, and outdoor activities while weighing just over a pound. I'm a science writer who has been covering solar energy and writing about renewable energy for the past ten years.

Which solar charger is best for base camping?

The Goal Zero Nomad 50 is a larger solar charger that is our winner for best for base camping. At 50 watts, it's the biggest and heaviest solar charger we tried. Like the Nomad 20, it can be linked to other solar panels and the only one that can be attached in a series to provide even greater charging power to a battery power bank.

Which solar panel has a DC charging output?

The FlexSolar 40W solar panel has a DC charging output, and it put out more power from this output than the USB-A output we used for our main test. Credit: Sam Schild The BigBlue SolarPower 30 and Blavor 30W Foldable each have a DC charging port as well.

Can a solar charger charge a phone?

Solar chargers, combined with a power bank or backup battery pack -- particularly those that can accommodate through charging (i.e., charging itself while charging devices) -- are the best, lightest way to charge your electronic equipment. While most adventurers are looking primarily for a portable phone charger, solar chargers can power:
