What is the implementation plan for bulk energy storage?

The Implementation Plan provides an operating framework for the program, with additional details to be provided in Bulk Energy Storage program solicitations. The plan begins with background on the 2019 Climate Leadership and Community Protection Act (the "Climate Act") and the 2022 Energy Storage Roadmap (the "Roadmap") as updated in March 2024.

What is the bulk energy storage program?

The Bulk Energy Storage Program will use an innovative Index Storage Credit incentive, as established in the Order and modeled in part on the Renewable Energy Certificate (REC) and Offshore Wind Renewable Energy Credit (OREC) utilized in other NYSERDA programs.

What does the 2025 BES approving order mean for energy storage?

While the Roadmap and 2024 Energy Storage Order contemplated the treatment of a storage resource as being either available or unavailable on a given day, the 2025 BES Approving Order directs NYSERDA to further address how partial availability in terms of time and capacity will be addressed under the operational availability definition.

Are bulk energy storage projects eligible for the ISC program?

In addition, a bulk energy storage project that is expressly included in an awarded Tier 1 REC or OREC contract may nonetheless be eligible for the ISC program if the REC or OREC contract provides that, upon award of an ISC contract (or similar), the REC contract is adjusted accordingly.

I. Executive Summary development of an initial forward storage procurement process for the procurement of energy storage resources. This report is to address the fourteen questions outlined in Section 16 ...

**Beginning Energy Level:** The total amount of Energy (in MWh) stored by the Energy Storage Resource at the beginning of the Day-Ahead Market day or a Real-Time Market interval.

With projects like State Grid Gansu's 291kWh solid-state battery cabinet procurement (&#165;645,000 budget) [1] and Southern Power Grid's 25MWh liquid-cooled cabinet framework tender ...

# Bulk Procurement of 15kW Telecom Energy Storage Cabinets Model 2025

Summary: This article explores key factors influencing outdoor energy storage procurement costs, analyzes industry applications, and provides actionable strategies to optimize budgets.

NYSEG and RG& E will review bidder submissions to Phase I, and notify bidders of their approval to submit a Phase II bid on September 22, 2025. Please review all requirements and details of the RFP ...

Please describe the unique services and benefits that distribution-connected energy storage systems can provide over transmission-connected energy storage systems.

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges still loom on the horizon--tariffs, shifting tax incentives, ...

On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

The Implementation Plan provides an operating framework for the program, with additional details to be provided in Bulk Energy Storage program solicitations.

The Roadmap proposed a comprehensive set of recommendations to expand New York's energy storage programs to cost-effectively unlock the rapid growth of renewable energy across the State ...
