Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity is expected to be commissioned in 2025. The country's revised national recovery and resilience plan ...

As a well-connected part of Southeast Europe's power system, with extensive interconnectors, Croatia now faces the central challenge of integrating battery storage into the grid ...

The new 158 MW battery storage system under construction near Split provides a textbook solution. "Energy storage isn't just about batteries - it's about creating a flexible grid that can handle ...

In 2022, a contract was signed to deliver battery electric multiple unit (BEMU) prototype and battery multiple unit prototype (BMU) with 6 energy storage devices.

Will Croatia build Europe's largest energy storage project? Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 ...

The European Bank for Reconstruction and Development (EBRD) said on October 22 it will invest EUR16.8mn in Croatia's first large-scale battery energy storage system and virtual power plant,...

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 MWh ...

The Zagreb lithium battery energy storage project demonstrates how smart energy solutions can power sustainable industrial growth. As battery costs continue to decline and efficiency improves, now is the ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time balancing of ...
