What are Eaton's modular data center solutions?

Eaton's modular data center solutions are designed to your specific needs and easily scalable and space saving with no customer white space consumed. Eaton's modular data center solutions are custom engineered to site-specific infrastructure requirements including power distribution, IT infrastructure, HVAC, etc. all in one enclosure.

Can modular systems handle high kW per rack?

Modular systems can be built to handle high kW per rack, with dedicated cooling, redundant power, and custom airflow designs. Whether you're running GPUs, HPC clusters, or edge compute, we can tailor the build to match your specs.

What is a prefabricated modular data center?

A prefabricated modular data center is a factory-built structure designed to house IT infrastructure in a fast, efficient, and scalable way. Unlike traditional data center builds, these systems are assembled offsite and shipped ready for rapid deployment.

What is a RakworX Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center designed for rapid deployment, scalability, and growth. Our Small Chamber add-on optimizes airflow, enhancing cooling by containing cold air.

Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density racks per pod with hybrid liquid-air cooling.

The Sunway 50kW/100kWh Outdoor Energy Storage System integrates high-performance lithium iron phosphate batteries, modular PCS, intelligent energy management, and a robust power distribution ...

RakworX offers customized solutions, from Air Dams to full containment units, to meet your unique environment's needs. RakworX, a trusted partner for VARs, Resellers, Low Voltage Contractors, and ...

Customized 50kw modular outdoor cabinet for data centers

These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors, sides and ...

Get flexible and cost-effective rack and containment products and secure integral systems in your data center. Secure voice, video and data electronics using reliable, customized solutions for small ...

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

Whether you're deploying at a remote site or expanding on-premise capacity, our containerized and steel-frame modular solutions are built offsite for rapid deployment, tested for quality, and customized ...

At RDI Enclosures, we specialize in designing and manufacturing high-performance, custom modular systems that protect and power today's most advanced data centers.

Custom-engineered to site-specific requirements, our solutions integrate your server equipment with corresponding electrical infrastructure in a single, prefabricated enclosure.

SOETECK offers highly customizable cabinet modular data center designed to meet the demands of modern data centers. This series of intelligent cabinets can be paired with various types of racks or ...
