Our Aimbridge Energy DC Microgrid packages provide power system capacities ranging from 5kW to 20kW and the ability to create multiple power cabinet configurations. Our intelligent Energy ...

Comprehensive, configurable DC power systems for mission-critical applications. Available with DC power and batteries in a single cabinet or with batteries separate for larger systems.

Explore a wide range of powerful DC-DC cabinet solutions for complex applications and systems.

Ensure constant availability and maximum energy efficiency with Vertiv's DC Power Systems. Discover innovative and dependable network-power applications with unit-level redundancy.

ecification Sheet EvoCharge Power Cabinets are used with EvoCharge Power Stations and distribute charging power to as many as 6 or 8 charging outputs (charge ports) simultaneously depending on ...

Xeravolt manufactured and dispatched 20 high-power 300 kW DC fast-charging units (dual-gun) to a European customer for the roll-out of multiple highway and retail charging hubs.

We have produced DC power cabinets for substations, electroplating, industrial applications, telecommunications and the PAGA market. These systems are extremely diverse and capable of ...

All cabinets are made using 15kW or 30kW master DC supply or Load and parallel connected 15kW or 30kW slave units. The masters controls the entire system for ease of operation. All individual units ...

Adopted 19 October 2023 The IEEE European Public Policy Committee (EPPC) calls on European Union policy makers to take actions to increase efficiency in the supply of Direct Current (DC) electric ...

2 x 300 mm² DC +, 2 x 300 mm² DC - Auxiliary AC Supply: 3 x 400/480 Vac; 3 x 2.5 mm² Interlock Cables: 2 wire STP (shielded twisted pair) Distance: 60 m (197 ft) (test for longer distances pending) ...
