MAK Plus Power Systems hospital IPS protects and supplies systems such as advanced local networks, communication systems, yacht, and hospitals isolated electricity with IP31 protected cabinets.

Data Device Corporation (DDC) offers reliable, field-proven custom "fit and forget" solutions for In-Flight Entertainment and Communications platforms: Line Replaceable Units (LRUs), integrated assemblies ...

AC/AC, AC/DC, DC/AC and DC/DC power sources are available, which can be built with or without electrical isolation depending on the application. In addition, it is possible to implement each source ...

BENNING has been supplying battery-based AC and DC power supplies to various mobile and fixed network operators worldwide for decades and has invested heavily in the development of highly ...

MQF120E AC/DC Medical Power Supply 120W Die MQF120E-Serie ist ein 120-Watt Schaltnetzteil im geschlossenem Gehäuses. Sie zeichnet sich durch eine sehr hohe Leistungsdichte und einen ...

We are able to offer a solution to most high voltage DC power supply requirements either from arguably the largest standard range of high voltage power supplies within the industry, or indeed by ...

Suitable for bench or 2U rack mounting, the Z+ is a very compact programmable power supply offering power levels from 200 to 800W, voltages of up to 650V and currents of up to 72A.

During the development of DP-PH series high-voltage power supplies, special emphasis was placed on versatility, high performance, precision and stability.

Sophisticated technology and high-quality, choice components enable high performance in a compact cabinet.

DDC power supply for hospital communication power cabinets from Germany

Up to 1.8kW of power is delivered by the DP-M high-performance power supplies series ...

With a lightweight and rugged construction, the 400 Series offers highly reliable power or signal connections for use within medical applications where space is limited.
