What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Are KDM's outdoor Telecom cabinets NEMA rated?

KDM offers any NEMA type from 1 to 13, including subtypes, such as 3R. Our NEMA enclosures are protected against weather, corrosion, and oil seepage. Outdoor telecom cabinets from KDM are often rated with IP65 and up, or 4/4X and up.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3, 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.
