----

For the last decade, data center design was linear. We planned for 5-8 kW per rack. We treated the utility grid as an infinite well--we plugged in, and they provided. That era is ending.

This Reference Summary provides you with one example of how Smart Solutions can help achieve eficiency and availability for small to medium data centers. This design optimizes capacity - to ...

Navitas Semiconductor has announced their latest 12 kW power supply unit (PSU) "designed for production" reference design for hyperscale AI data centers with high-power rack ...

This end-to-end solution seamlessly integrates into rack-level configurations, significantly boosting system efficiency, mitigating thermal throttling, and simultaneously reducing both the Total Cost of ...

Gallium nitride (GaN) power IC and silicon carbide (SiC) technology firm Navitas Semiconductor Corp of Torrance, CA, USA has announced its latest 12kW power supply unit (PSU) ...

The 12kW PSU combines gallium nitride (GaN) and silicon carbide (SiC) devices and complies with Open Rack v3 (ORv3) specifications and Open Compute Project (OCP) guidelines for ...

For two 120kW racks of compute - each rack featuring 18 compute trays (72 Grace CPUs and 144 Blackwell GPUs) and nine NV switches, Meta utilizes four racks of cooling racks (two ...

Flex OCP ORv3-inspired liquid-cooled systems are designed to support the most demanding artificial intelligence (AI) and high-performance computing (HPC) workloads, eficiently cooling up to 120kW ...

Nvidia shook the entire Datacenter Industry in March when it announced that its state-of-the-art AI computing platform would be a 120kW, 72-GPU rack exclusively cooled via Direct-to-Chip ...

Schneider Electric"s new line of solutions equips customers with integrated, data-validated, and easily scaled

Data Center Rack 120kW Project Solution

white space solutions that address new challenges in pod and rack ...
