What is IP55 rated fully closed rack system?

IP55 rated fully closed rack system provides safe space for IT equipments, which is noise cancelling, thermal insulated, and dust proof. Special double layer transparent front door design prevents condensate and offers status indication of IT equipments.

What is a rack enclosure?

In reality, rack enclosures are highly engineered equipment that can enhance the efficiency of supported equipment, and improve the productivity of data center personnel. Rack systems are strategic assets that play a key role in system uptime and data center availability and reliability.

What are the advantages of IP55 rated IT environment?

IP55 rated IT environment, excellent dust resistance and noise reduction capabilities, Anti-condensation design, ensure quiet, secure and stable operation. Smart 3in1 (PIN /Finger /RFID) Door access system, prevent unauthorized entry. Real-time equipment status monitoring and alarm, avoid delayed response.

What is IP55 rated 3 in 1 access control system?

IP55 rated 3 in 1 (fingerprint/pin/RFID) access control system effectively prevent unauthorized entry including invasion, water and dust. And supports user management and logging records. Camera system provides remote video monitoring to learn assets status in any time of situation.

Built with a strong frame, the side panels feature a double-layer structure with a 1" void to help with heat transfer and meets GB4208-93 standard and IP55 (water/dust ingress) while providing ventilation.

This SmartRack® 55U rack enclosure is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment.

AZE's wall / pole mount outdoor weatherproof rack enclosure secures and organizes 19" rack mounted equipment in harsh environment, protection against water, ice, snow and other moisture.

Our solution is made of IP20 or IP55 Server cabinets with Micro Data Center functionality. It integrates an intelligent cooling system and includes UPS unit, power supply & access control system.

Data center rack IP55 used for emergency rescue

A quick way to get your critical servers out of harm's way in the event of a fire or other disaster - our mobile data center products can be rolled easily by one person and fit through standard doors and ...

Today, even though the sophistication and criticality of the data center has soared, some may still assume that because a rack enclosure isn't electronic, it's a modest piece of furniture.

These standalone units analyze, process, and back up data in real-time to reduce security threats. They use data redundancy protocols for added protection and have integrated cooling systems that keep ...

Delta's modular datacenter solution offers a datacenter environment that provides safe equipment operations within the racks, and supports the development and standardizing of micro datacenters ...

IP55 rated fully closed rack system provides safe space for IT equipments, which is noise cancelling, thermal insulated, and dust proof. Special double layer transparent front door design prevents ...
