Who is EPC energy?

As the industry leader in renewable energy, EPC Energy is innovative to provide reliable turnkey energy storage solutions. EPC Energy is a diversified energy storage contractor and provides complete engineering, procurement, and construction (EPC) services from commercial and industrial to utility-scale storage projects.

What can EPC energy do for You?

We can build out both or add energy storage to existing PV projects. EPC Energy also provides integrated energy storage solutions for microgrid projects that tap into the power of storage, PV, and wind generation asset. We make energy efficiently.

Why should you choose EPC power?

EPC Power provides your operation with adaptable PCS solutions. Engineered for space efficiency and seamless integration, our IP55-rated systems provide reliable performance in any application and fuel the world's largest renewable energy projects. Our inverters provide reliable, high-power output and advanced grid interaction for data centers.

Designed for C& I project developers, EPC contractors, installers, and renewable energy integrators, the Wenergy ESS cabinet offers flexible capacity configuration and supports both on-grid and off-grid ...

EPC Energy is a diversified energy storage contractor and provides complete engineering, procurement, and construction (EPC) services from commercial and industrial to utility-scale storage projects. ...

Consolidating EPC services under Fluence reduces redundancies, accelerates timelines, and often results in cost savings by leveraging economies of scale in the procurement process.

As an EPC general contractor, we incorporate hydrogen technology into our projects. The focus of our projects is on industry, municipal companies, grid operator and infrastructure.

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you

covered. We want to help you create a sustainable future.

The CAB1000 is a scalable power inverter that provides reliable energy conversion for applications of any size. Designed for both UL and IEC markets, it's the easy-to-use building block that gets your ...

Elgin is a full-service EPC contractor specializing in utility-scale Battery Energy Storage Systems (BESS). Our experienced team designs and installs BESS technologies from a variety of leading ...

Endurant offers highly specialized end-to-end turnkey engineering, procurement, and construction (EPC). We have unparalleled experience from permitting through commissioning across CHP, fuel ...

As virtual power plants and vehicle-to-grid integration reshape the industry, tomorrow's EPC contractors might be managing AI-driven storage networks across continents.

BEI Construction has the engineering, electrical and implementation expertise required on energy storage construction projects (BESS) and can deliver battery-based energy storage as part of your ...
