Georgetown actively seeks and recruits highly talented and motivated students from all backgrounds. The university enrolls more than 6,300 undergraduates from all 50 states and over 130 countries; ...

As cities worldwide seek sustainable power solutions, this Texas-based initiative demonstrates how lithium-ion battery systems can stabilize grids while accommodating solar and wind energy fluctuations.

A complete mid-node battery energy storage system (BESS) with everything you need included in one container - Our 250 kW/575 kWh battery solutions are used across a wide variety of sectors to ...

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

Leave Georgetown poised to be a leader in your field and change-maker in your community. Each of our graduate and professional programs has its own admissions process and requirements. To see ...

Georgetown is both mind and heart, providing a rigorous and innovative education and a commitment to social justice within a diverse campus community.

A flexible mid-node battery energy storage system (BESS) with rapid deployment and remote monitoring - Our 500 kW/250 kWh battery solutions are backed by engineering expertise to help reduce ...

Aggreko's new mid-node battery energy storage systems, available in 250 kW/575 kWh and 500 kW/250 kWh configurations, offer plug-and-play solutions to improve efficiency, reduce ...

Our mid-node 250 kW/575 kWh Battery Energy Storage Systems (BESS) are designed to satisfy a variety of on and off-grid applications, enabling reduced emissions and costs.

Georgetown Outdoor Energy Storage Unit 250kW

The American Studies Program at Georgetown University offers an interdisciplinary Major that encourages students to ask critical questions about power, identity, and American culture.
