---

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids backed with battery energy ...

The project, owned and operated by AES Distributed Energy, consists of a 28 MW solar photovoltaic (PV) and a 100 MWh five-hour duration energy storage system. AES designed the unique DC ...

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ...

This project plays a crucial role in Guinea's transition towards a more sustainable energy future. By leveraging advanced lithium battery technology, it enhances energy security while ...

You know, Africa's got this energy paradox - 60% of the continent lacks reliable electricity while sitting on enough renewable resources to power the world twice over. Guinea's cracked part of the code using ...

That's the scale of the Middle East's largest energy storage project, currently under construction in the UAE. Designed to tackle the region's infamous "sun-soaked but storage-starved" energy paradox, ...

Rio Tinto invested \$300 million in Highview Power's energy storage project in Manchester, partnering with the UK Infrastructure Bank and Goldman Sachs to enhance long ...

The project involves the expansion of the Fujairah Oil Refinery and the construction of a new storage capacity. The expansion of the refinery will increase its capacity from 22,000 barrels per day to ...

An incident which caused batteries to short has taken offline Phase II of Moss Landing Energy Storage Facility in Monterey County, California, the world's biggest lithium-ion battery energy storage system ...
