---

Guyana's project isn't just about storing energy--it's about harnessing chaos. With 87% forest cover and rivers that behave like moody teenagers (unpredictable and full of energy), the ...

From flood-resistant battery racks to smart energy management software, Guyana's emergency power infrastructure is entering a new era. The right storage solutions don't just keep lights on - they keep ...

More than 100 miles offshore Guyana, three of the world's largest, best-in-class floating production storage and offloading (FPSO) vessels - the Liza Unity, the Liza Destiny and Prosperity - are ...

With our team working on-site around the clock, focused on meeting international quality standards and the arrival of the BESS, the project moves one step closer to completion, ensuring ...

As Guyana positions itself as a Caribbean energy leader, this EPC project demonstrates how electrochemical storage can transform national grids while supporting sustainable development goals.

The project is widely viewed as transformational for Guyana, which currently relies heavily on imported HFO to meet its electricity needs. The switch to domestically sourced natural gas is ...

Spanning 13 acres, the advanced facility combines solar generation and energy storage to stabilize power supply on the Essequibo Coast. It captures excess solar energy during the day and ...

This project is Guyana's largest hybrid solar-plus-storage power facility and is expected to provide greater grid reliability for thousands of residents in the Essequibo region.

The plant is part of Guyana's \$83.8 million Utility-Scale Solar Photovoltaic (Guysol) Program, which targets 33 MWp of solar and 34 MWh of storage across eight sites under the nation's ...

# Guyana produces energy storage equipment

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...
