---

High-capacity mobile energy storage EV charger with LiFePO4 battery. Fast DC charging for emergency roadside assistance. Supports CCS1, CCS2, GB/T, NACS & CHAdeMO. IP54 rated.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

Engineered for durability and ease of use, our mobile power station combines robust performance with eco-friendly energy delivery. Whether in remote locations or demanding environments, it offers a ...

Our new MBE series is a dedicated range of battery energy storage solutions that reduce fuel consumption and carbon emissions. It can be used as a stand alone solution to meet the needs of ...

Flexible mobile energy storage systems for remote sites and EV charging. Get sustainable, silent, and portable power solutions with Pulsar Industries.

A mobile DC fast charger is a transportable DC charging system designed to deliver high-power DC energy directly to electric vehicles using an external power source, rather than an onboard battery ...

Our flagship products combine energy storage systems (ESS) with EV charging capabilities, offering mobile power solutions that solve the most common deployment bottlenecks.

With its robust, adaptable design, Charge Qube is the definitive solution for businesses looking to future-proof their energy infrastructure, reduce emissions, and embrace the benefits of ...

From highway rapid charging to rural mobile rescue, our backup power station and portable power station solutions have safeguarded EV drivers across 20+ provinces and municipalities.

# High-power mobile energy storage charging equipment

Leveraging the benefits of high-density lithium-ion batteries, these units are compact and light compared to traditional alternatives, yet capable of providing days of autonomy of power with a single charge.
