-----  
Does the limited warranty cover discharged batteries?

This limited warranty does not cover merely discharged batteries. If the battery is still not working correctly, determine if the battery is still within the total Limited Warranty Period. The applicable Limited Warranty Period is calculated from the date of sale to the original purchaser.

How long does a battery last under warranty?

This defines the number of full charge/discharge cycles a battery can perform under warranty. A common figure is 6,000 cycles, which equates to about 16 years if used once per day. However, warranties usually end when either the cycle count or the years are reached -- whichever is sooner.

3. Throughput Warranty  
Do all batteries come with a warranty?

Most batteries and many of our accessories come with a manufacturer's warranty. Warranties vary by product type and manufacturer. Please refer to the product description page for the specific warranty coverage period.

What does a battery warranty cover?

**Installation or Workmanship Warranty** This is separate from the battery itself and covers problems caused during installation-- such as water damage from poor sealing. It's usually covered by your installer for 5 years under Clean Energy Council (CEC) guidelines.

**6. Extended Warranties** Some retailers offer extra warranty coverage for a fee.

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace of mind.

In this guide, we break down how solar battery warranties work, what to look for in a good battery warranty, and how Australia's battery brands compare them across different brands.
