What is an IP65 enclosure?

Casters, support legs and risers. IP65 enclosures are general outdoor cabinets that provide basic waterproof protection. They are equivalent to NEMA 4 and NEMA 4X enclosures. Our enclosure designs provide high quality electrical enclosures for industrial applications that can be easily customized to meet IP65 standards at a standard-model price.

What does IP65 code mean?

The two-digit code shows the protection against particles (the first digit) and water (the second digit). IP65 electrical enclosures provide: Complete protection for the enclosed equipment from dust and other materials such as dirt, oils and non-corrosives. Protection from voltage and moving parts for people who come in contact with the enclosure.

Does bison profab meet IP65 standards?

Bison ProFab is a leading manufacturer of high quality electrical enclosures that meet IP65 standards. International Protection (IP) standards are used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit).
