What are IP66 enclosures?

Our IP66 enclosures offer the highest protection against particles and a high level of protection against water. Following strict IP66 standard protection rating rules, these enclosures stringently adhere to these standards, and you can expect superior quality and craftsmanship.

What are the features of IP66 cabinets?

Features of our IP66 cabinets include: - Complete protection from solid objects of any kind. - High pressure jets from all directions, (limited ingress permitted). - Enclosure can be hosed down, eg. Ship decks. Often called rain tight enclosures due to their excellent weather resistance.

What is IP66 rating?

At Nema Enclosures, we observe the IEC standardized International (or Ingress) Protection Code system for measuring enclosures' capabilities.

What are IP rated cabinets?

IP rated cabinets offer certified protection against environmental elements. The Ingress Protection (IP) rating determines an enclosure's ability to resist solids and liquids, while NEMA (National Electrical Manufacturers Association) standards specify resistance to corrosion, rain, and other hazards. These enclosures securely host:
