How much does an AGM battery cost?

Expect to pay \$230 to \$450 or more for an AGM battery. The added cost comes with benefits like longer life and less maintenance. Premium batteries are built for vehicles that demand even more. Performance cars, offroad vehicles, and hybrids often require unique battery types like lithium-ion. These can cost \$300 to \$500 or even higher.

Where can I get a new car battery?

Your local dealership, auto parts store or automotive service center can check your current battery or hook you up with a new car battery. If you're going to a local dealership, it makes sense to make an appointment for your convenience. How long does a car battery last?

How do you replace a battery?

Carefully lift out the old battery. Look for any corrosion on the cables and remove it with a wire brush or terminal cleaning tool. Drop in the new battery so that the positive post lines up with the red cable. Secure it with the battery retaining clamp that you removed earlier.

Can a do-it-yourselfer replace a car battery?

A confident do-it-yourselfer can replace a vehicle battery. Start by checking your vehicle owner's manual for the battery's proper size and location. Find the positive and negative posts. The positive post will have a red plastic cover over it. Look for a + sign stamped onto the battery or printed on a nearby label.
