What is a hybrid solar microgrid?

A Hybrid Solar Microgrid is a Solar Microgrid that includes additional sources of energy generation, beyond just solar. A Community Microgrid is a microgrid that covers a target grid area and relies on existing distribution feeders (ie, power lines) to operate when islanded.

What did the CPUC request for SCE's energy storage solicitation?

It also requested the CPUC to direct an electrical corporation serving the Los Angeles Basin to procure through a competitive solicitation a minimum of 20 MW. Resolution E-4937 approved SCE's energy storage solicitation to comply with SB 801.

What is the AB 2514 energy storage procurement policy?

In 2013, the CPUC issued Decision (D.) 13-10-040 which set an AB 2514 energy storage procurement target of 1,325 megawatts (MW) by 2020. The CPUC's energy storage procurement policy was formulated with three primary goals: Greenhouse gas (GHG) reductions in support of the State's targets.

What is PG&E's procurement target?

The procurement target was set at 1,325 megawatts (MW) to be divided amongst Pacific Gas and Electric Company (PG&E), Southern California Edison (SCE), and San Diego Gas and Electric (SDG&E). This procurement target was set for implementation by 2020, with installations no later than the end of 2024.

Energy Storage LegislationEnergy Storage Procurement to DateEnergy Storage Procurement EvaluationScaling Up and Crossing BoundsEnergy Storage ProceedingsOther Energy Storage Related RulemakingsAdditional ResourcesR.10-12-007: In December 2010, the CPUC opened a Rulemaking to set policy for California Load Serving Entities (LSEs) to consider the procurement of viable and cost-effective energy storage systems in response to AB 2514. This rulemaking identified energy storage end uses and barriers to deployment, considered a variety of possible policies to encourage deployment. See more on cpuc.ca.gov Last updated: Jul 5,

ProcurementThis chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

Deploys solar + energy storage on all or most schools in the State. Reduces school operating costs, creating resources for teachers and students. Secures IRA tax credits to fund 30%, 50%, or more of ...

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.

ForeFront Power's solar solutions paired with energy storage enable public agencies to reduce substantial energy expenses, hedge rising utility costs, and conserve bond funds for other needs.

Division of Financial Management Department of Procurement NT 45 W. Gude Drive, Suite 3100 Rockville, Maryland 20850 July 11, 2025 NOTICE TO OFFERORS

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and sample ...

The SBUSD is a major school district that increasingly recognizes the value-of-resilience (VOR) and has embraced the Clean Coalition's vision to implement Solar Microgrids at a number of its key schools ...

As of September 2011, five deals have been finalized using the hybrid model in New Jersey, adding 3.2 MW of solar PV in Morris County, 14.5 MW in Somerset County, 3.4 MW in Union County, and 10 ...

The School Project for Utility Rate Reduction (SPURR) announces a Request for Proposals (RFP) seeking qualified vendors to submit responsive proposals for solar photovoltaic and ...
