What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range, you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

What is IP54 enclosure?

At Nema Enclosures, we adhere to the IEC's standards for determining enclosures' capabilities. Their International (or Ingress) Protection IP rating system defines an enclosure's protective capacity, and then assigns an IP Code.

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

Are IP54 electrical enclosures good?

Our IP54 enclosures have a high level of protection against particles, and a fair amount of protection against water. All of our enclosures rigorously comply with the guidelines, so you can count on quality and cost-efficient enclosures. What Are Characteristics of IP54 Electrical Enclosures?

Need more information about IP54-rated enclosures for your specific environment? Our technical team is ready to help you find the perfect solution for your requirements.
