What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range, you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

Are furnace filters IP54 compliant?

It's fully compliant with IP54 standards. The louvered front door and built-in dust filters prevent drips, splashes, dust, dirt and other airborne contaminants from getting inside the enclosure. You can replace the filters with standard 20 x 24 x 1 inches furnace filters.
