The GSL ENERGY BESS-372K is a 372kWh, 1331V liquid-cooled battery storage cabinet developed for commercial and industrial energy storage applications across the USA and Canada.

It deeply integrates advanced battery management, intelligent thermal control systems, and comprehensive safety technologies to provide high-efficiency and highly reliable power support for ...

Your path to success in Canada starts with Highjoule. At Highjoule, we are committed to supporting our agents in Canada with reliable energy storage solutions that promote success and sustainability.

Featuring an advanced battery management system (BMS), power conversion system (PCS), liquid cooling, and intelligent energy management (EMS), this energy storage cabinet ...

What is the battery type of the product? It's LiFePO4 with the advantages of high temperature resistance, strong safety stability, and better circulation performance.

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint reduced by over 20%, with multi-unit scalability for ...

Fully pre-assembled, it offers fast installation and seamless integration with leading inverters such as Goodwe, Deye, Growatt, and Sofar. With multiple operating modes and intelligent monitoring, it ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Efficient and Flexible: High-efficiency liquid cooling technology with the temperature difference $\leq 3^{\circ}\text{C}$; Modular design supports parallel connection and easy system expansion.

Intelligent Energy Storage Cabinet for Canada Port Low Temperature Type

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.
