The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Explore the efficiency of Microgrid Energy Storage System from C& I Energy Storage Systems, ideal for reliable commercial and industry energy storage.

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

The MG100K is a high-performance all-in-one energy storage system with 100kW output and 207kWh capacity, ideal for microgrids, industrial backup, and solar integration. Featuring LiFePO4 batteries, ...

The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

Our batteries come in capacities of 50kWh, 60kWh, 70kWh, and 100kWh, providing high-voltage power for efficient energy storage. For industrial microgrid solutions, we offer battery options ranging from ...

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications. Individual pricing for large scale projects and ...
