We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Our trailerized and containerized platforms integrate solar PV, advanced battery storage, and fuel cells into one seamless solution--delivering reliable, low-emission power where diesel once dominated.

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Ideal for remote areas, emergency power supply, and various off-grid applications, ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

The EK photovoltaic micro-station energy storage cabinet has redefined the power supply mode of distributed energy scenarios with its core advantages of "intelligent integration, multi-energy ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

From hybrid solar + propane SOFC systems to multi-cabinet methanol HT-PEM backup platforms, MOBICELL cabinets ensure dependable, diesel-free power. Every system is remotely monitored ...

Shop our selection of complete solar kits and bundles for off-grid, hybrid, grid-tie, and mobile solar systems. Choose from top brands like EG4 Systems, Victron Systems, and Schneider Systems.

Mobile photovoltaic cell cabinets for highway use

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.
