We design and supply prefabricated telecom shelters, E-houses, and modular enclosures for power, telecom, and industrial applications.

With our wide range of cabinet enclosures, you can find the perfect fit for your specific requirements. Whether you need a compact enclosure for limited spaces or a larger one for extensive installations, ...

Modular enclosures in the Middle East and Africa are pre-fabricated, customizable boxes designed to house electrical, electronic, or communication equipment. Unlike traditional fixed...

By combining modular innovation with engineering expertise, Dorce Prefabricated and Construction continues to provide reliable, scalable, and secure solutions for the telecommunications industry.

ABB eHouses are prefabricated transportable substations, designed to house medium voltage and low voltage switchgear, critical power equipment and automation cabinets.

An extended range of steel modular structures such as E-Houses, technical buildings and remote instrument shelters, offer reliable, customized housing for the intricate technology and equipment ...

Explore our range of precision-engineered cabinets and enclosures, designed to meet diverse infrastructure needs. From data centers to outdoor solutions, we offer both standard and custom-built ...

Our cabin for Copper Cord Connection Patch Panels, Fiber Optic Consolidation, & Multi User Telecommunication Outlet Assembly are being widely used in various projects.

We offer an internal communication system for harsh conditions, applying industrial-grade intercom terminals in each link of the steel production line to ensure that production line workers can ...

Modular Communication Cabinets for Middle Eastern Steel Plants

Our wall-mounted electrical enclosures are engineered for durability, security, and ease of installation, making them ideal for industrial control systems, automation cabinets, and distribution boxes across ...
