The DEYE 30 kW 3-Phase High Voltage Hybrid Inverter is a robust, high-efficiency solar inverter designed for large commercial and industrial solar systems in Thika, Nairobi, and across Kenya.

With a blend of high-output solar panels, smart lithium storage, and hybrid inverter technology, this system ensures clean, reliable, and uninterrupted power day and night.

This project provides the industrial park with a reliable power source, ensuring stable and continuous production while significantly lowering energy costs for users.

The Deye 30kW Hybrid Solar Inverter delivers unmatched energy reliability for Kenyan households and businesses. This Three Phase High Voltage solar inverter intelligently manages solar, battery, and ...

Our systems are designed to store excess solar power for use during peak times or power outages, making them ideal for residential solar backup systems in Kenya and commercial solar backup ...

Solar panel kit with battery and inverter ensures stable daytime power for factories. Learn how Namkoo delivered a hybrid solar system for a Kenyan factory.

30kW SRNE hybrid solar system with 48.21kWh lithium storage and 24.8kW panels. Designed for factories, offices, and commercial operations by Macire Kenya.

These three-phase hybrid systems are engineered for commercial and industrial facilities seeking to reduce energy costs while ensuring power reliability. Available in 30KW, 50KW, and 100KW ...

Advanced lithium battery energy storage systems for reliable backup power, peak shaving, and load shifting.

Nairobi 30kw solar energy storage power generation and storage integrated machine

Reduce electricity costs significantly. Future-ready electric vehicle charging stations powered ...

The Deye 30kW 48V Three-Phase Hybrid Inverter represents a powerful and sophisticated energy management solution for commercial and industrial solar power systems in Nairobi and beyond.
