The Kenya Electricity Generating Company is piloting use of a Battery Energy Storage System for uninterrupted renewable power, marking a new frontier in Kenya's green energy strategy.

East Africa is emerging as one of the world's most dynamic regions for solar power and battery storage. On 3-4 February 2026, Intersolar Africa will take pla...

Master battery energy storage projects with our ultimate site selection checklist. Find and evaluate ideal locations to minimize risk and maximize profitability.

Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable ...

Discover how Nairobi's cutting-edge energy storage solutions are reshaping East Africa's renewable energy landscape - and why this matters for industrial and commercial projects.

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

Meta Description: Discover how Nairobi's largest battery energy storage project transforms Kenya's renewable energy landscape. Explore its capacity, environmental impact, and role in grid stability - ...

The Kenya Electricity Generating Company PLC (KenGen) has announced plans to implement a Battery Energy Storage System (BESS) as part of the Kenya Green and Resilient ...

The BESS project will reduce the impact of intermittency on the grid and store power for use during peak hours. KenGen is working with the World Bank to fast-track implementation of the project with the ...

KenGen's recent launch of a 1.16 MWh Battery Energy Storage System (BESS) in Nairobi came with all the

typical trimmings of a milestone event.
