Intersolar Africa 2026 will take place in Nairobi on February 3-4, positioning Kenya as a key hub for solar power and energy storage in East Africa.

Intersolar Africa 2026 will gather global energy experts in Nairobi this February to showcase solar and storage solutions aimed at driving regional economic growth and energy security.

East Africa is emerging as one of the world's most dynamic regions for solar power and battery storage. On 3-4 February 2026, Intersolar Africa will take place at the Sarit Expo Centre in ...

Solar photovoltaics combined with energy storage have emerged as the most cost-effective and scalable solution to expand capacity, stabilize supply, and strengthen long-term energy ...

With strong regional demand, falling technology costs, and growing international engagement, Intersolar Africa 2026 will provide a powerful platform to connect global expertise with ...

Nairobi is poised to further cement its position as the leading solar and energy storage hub for East Africa. The Intersolar Africa 2026 exhibition, scheduled for February 3-4, will showcase the ...

Combat power outages with our compact, modular lithium battery system with automatic backup switching. This innovative power solution serves residential properties in Kenya's Nairobi area, ...

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising ...
