What is an IP66 rated enclosure?

With its IP66 rated enclosure,your network devices and servers are protected from heavy rainfall,ensuring reliable performance even in the most challenging weather conditions.

Are outdoor network cabinets IP rated?

In an age where outdoor connectivity is paramount,safeguarding your IoT devices and network equipment from environmental threats is no longer optional. IP Rated (NEMA) Outdoor Network Cabinets are purpose-built to withstand adverse conditions like water,dust,temperature fluctuations,and mechanical impacts.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is IP66 & how does it work?

The IP66 rating guarantees top tier protection against dust ingress and powerful jets of water,while its weatherproof construction ensures your devices stay operational,no matter the conditions. Constructed from 1.5mm thick galvanized steel,the cabinet provides enhanced protection and durability.
