What is a global power supply battery cabinet?

Global Power Supply provides a full range of battery cabinets engineered to extend UPS runtime, protect sensitive loads, and maintain continuity in any environment. A UPS system provides immediate backup power during an outage. Paired with compatible UPS battery cabinets, your facility gains extended power capacity and greater resilience.

What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What is a Vertiv EnergyCore Battery Cabinet?

The Vertiv(TM) EnergyCore Lithium-Ion Battery Cabinet provides high power density in a compact design. It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30C and optimized for either 5- or 7-minute runtime.

Who makes battery cabinets?

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs. Because every facility's power requirements are unique, we can help tailor the number of cabinets, capacity, and layout to meet your space and runtime objectives.

We carry a full line of factory-assembled cabinets designed for data center UPS backup systems with pure lead agm batteries.

Our sales team will promptly send you a quote with all necessary pricing and delivery information. With the quote number you receive, you can then conveniently place your order online.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Northwest Data Center Battery Cabinet 40kWh Direct Sales

With minimal additional hardware required, your install stays simple and low-cost. What's Included? Easy Installation: Battery module design fits our indoor/outdoor cabinet and wall mount option with ...

It is an ideal solution for commercial and industrial businesses with high energy demands, from large retailers and asset intensive manufacturing plants to critical data centers, electric vehicle charging ...

Peak cutting and valley filling, self-use, and hybrid grid, off grid.

Our team can assist you in identifying the correct cabinet model, battery type, and configuration to ensure reliable integration with your UPS system and long-term performance for your facility.

C& C Power's UBC40 Battery Cabinet is a front terminal battery cabinet that typically supports system sizes from 80kVA-225kVA. The UBC40 is primarily used to support large IT rooms, large networks, ...
