How much power will Calibrant deliver to Aligned's Pacific Northwest data center?

Under the agreement, Calibrant will deliver a 31 MW, 62 MWh BESS to Aligned's Pacific Northwest data center campus, which is currently under construction in Hillsboro, Oregon.

Will a battery system bring a large-scale data center online?

The companies argue that this will be the first time in the U.S. that a battery system is purpose-built to accelerate interconnection and bring a large-scale data center online.

How many data centers does Aligned have?

Texas-based Aligned operates 50 data center campuses across the US, with a reported capacity of 5 GW. Calibrant and Aligned confirmed they are considering similar projects in other markets. The news comes a week after a consortium including Nvidia, BlackRock, Microsoft, and xAI announced the purchase of Aligned Data Centers for \$40 billion.

Under the agreement, Calibrant, a premier provider of on-site energy solutions for large power users, will deliver a 31-MW/62-MWh battery energy storage system (BESS) at Aligned's data ...

A data center in the Pacific Northwest is going to come online years earlier than expected due to siting a 62-MWh battery energy storage system on its campus, which will allow the data ...

The partnership, which also includes a collaboration with a regional utility that is set to be announced later this year, marks the first time in the country that a battery system is built and ...

Florida-based distributed energy firm Calibrant Energy will deliver a 31-MW/62-MWh battery energy storage system (BESS) at Aligned Data Centers' campus in the Pacific Northwest ...

Under the agreement, Calibrant will deliver a 31 MW, 62 MWh BESS to Aligned's Pacific Northwest data center campus, which is currently under construction in Hillsboro, Oregon.

Aligned Data Centers and Calibrant Energy announced a 31 MW battery energy storage system at Aligned's

Northwest Data Center Battery Cabinet Hybrid

Pacific Northwest campus, operational by 2026, to accelerate grid interconnection.

Aligned Data Centers has partnered with Calibrant Energy, an energy storage developer, to deploy a Battery Energy Storage System (BESS) at one of its data centers in the Pacific Northwest ...

Large-scale battery system enables Aligned Data Centers' Pacific Northwest facility to access grid power years ahead of schedule, offering a scalable and sustainable model for high ...

Digital infrastructure designer Aligned Data Centers, which is being acquired by a subsidiary of BlackRock, is contracting Macquarie-backed Calibrant Energy to provide 62 MWh of on-site battery ...
