The project, the first of its scale and design in the country, combines solar and wind energy with advanced battery storage to enhance grid stability and service quality.

Summary: On 12 September 2025, Mauritania signed a \$300 million agreement with renewable energy developer Ewa Green Energy to construct a 220-megawatt (MW) hybrid power plant near ...

The 220-megawatt plant in Nouakchott will integrate 160 megawatts of solar photovoltaic capacity, a 60-megawatt wind farm, and a substantial 370-mWh battery energy storage system, all ...

Mauritania to Launch 220MW Hybrid Renewable Power Plant in Nouakchott Mauritania will soon launch construction of its first large-scale hybrid renewable energy project under a public-private ...

The company mainly focuses on solar and wind power projects such photovoltaic power, concentrated solar and offshore and onshore wind farms. Masdar invests in and contributes to innovative projects ...

Mauritania has taken a new step in its energy strategy, signing two public-private partnership agreements in Nouakchott on Friday, September 12, for the construction and operation of ...

With an investment of \$287 million, the project includes the construction of two renewable energy plants: a solar power plant in Nouakchott and a wind farm in Boulenouar.

As Mauritania accelerates its renewable energy transition, solar power generation and advanced energy storage solutions are becoming critical for stable electricity supply.

In a significant step towards energy transition, Mauritania signed a public-private partnership agreement worth \$300 million on Friday, September 12, in Nouakchott to construct a ...

Nouakchott, Mauritania -- In a landmark move toward sustainable energy development, Mauritania has signed

Nouakchott wind and solar power system

its first public-private partnership (PPP) in the energy sector, paving the way ...
