Intelligent BMS, providing complete protection. Support high discharge power, IP55, natural cooling, wide temperature range: -20°C to 55°C. Modular design, easy to expand. Suited to residential and ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

Unlock energy independence and maximize ROI with the Cooli Smart 100kW/215kWh Air-Cooled Energy Storage Cabinet. Engineered for commercial and industrial resilience, this high-density ...

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, safe, and efficient lithium battery storage with advanced thermal management for commercial and industrial applications. All-in ...

The battery storage cabinet protects from moisture and ensures that your batteries remain in top condition for years to come. In addition, it is essential to ensure your battery storage cabinet is ...

Our solution is an all-in-one package: Battery packs, charge controller, BMS, EMS, and PcS, all integrated into a single unit with a highly efficient three-level topology to optimize system efficiency.

The door-mounted embedded integrated air conditioner does not occupy cabinet space, increases the available space of outdoor cabinets, has better top structural integrity and good waterproofing effect.

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.

This fully integrated 100kW/215kWh system combines high-density battery storage with intelligent power management in a single, factory-assembled unit - delivering unmatched performance and reliability ...

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, ...
