What is a 40kW grid-connect solar kit?

A 40kW grid-connect solar kit includes solar panels, string inverter, and the racking system for a ground mount. These complete PV power systems can work for a home or business, with everything you need to get the system up and running. The kits include hardware components only; does NOT include labor.

What is an off-grid solar system kit?

It is perfect for installation on an RV, Off-Grid, Cabinet, or House and helps buying and setting up a complete off-grid solar kit simple, quick and easy. The Off-Grid Solar System Kit is ideal for a power system that requires high versatility.

What is a 40kW Solar Kit?

A 40kW Solar Kit is a complete PV power system that can work for a home or business. It includes hardware components only and does not include labor. This kit can require over 2,300 square feet of space and provides 40,000 watts of DC direct current power.

How to choose a 40kW Solar System?

While grid-tie configuration is the most common choice, you can also go for hybrid or off-grid design. The problem with a 40kW solar system with batteries is getting storage of a capacity that is large enough. Battery storage provides backup during power outages in the grid. However, it's going to greatly increase your expenses.

The price of a 40kW solar system is from \$700 to \$22,000, It depends on which option you choose, if it's a on grid system without batteries the cost is much lower.
