What is a n8700 system DC power supply?

The Agilent Technologies N8700 series system DC power supplies give you just the right performance -- at just the right price -- in a compact (2 U) package. This family of affordable 3300 W and 5000 W single-output programmable DC power supplies consists of 21 models for simple DC power applications.

Why should you choose nj700 power supply?

This noise-less performance can be maintained with stringent electrical characteristics even under 45°C operating environment. As a versatile power supply, NJ700 has powerful +12V output of 58A for high-end system usage and its flexible, flat modular cables make assembly easy for improved case airflow.

What interfaces does the n8700 series power supply have?

The N8700 Series power supplies comes standard with GPIB, Ethernet/LAN, and USB 2.0 interfaces giving you the flexibility to use your I/O interface of choice today and safeguard your test setup for the future. The N8700 is fully compliant with the LXI Class C specification.
