What is a reefer generator?

Underslung Type Reefer Generator The Ai Power diesel Reefer Generator Set is designed to provide highly reliable unattended continuous operation for all refrigerated ocean going container units in both over-the-road and rail transport modes.

Where is a genset on a reefer container?

The generator is normally mounted on the front of a reefer container; in those cases, it is a clip-on genset. The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used.

What is a carrier type clip on Reefer generator?

Carrier Type Clip on Reefer Container Generator Ai Power Reefer Generator set is designed for mounting to the upper front structure of an ISO 20ft or 40ft reefer container. The design incorporates quick connections to the upper container corner casings.

Where can I buy a genset container?

The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry.
