What is a pressurized explosion proof cabinet?

Intertec's pressurized explosion proof (Ex p) cabinets are constructed from GRP (glass reinforced polyester) composite materials. These materials are highly resistant to corrosion and have a similar strength to stainless steel, but are about 75 percent lighter, making them ideal for equipment containment and personnel shelter applications.

Are explosion-proof cabinets safe to use?

Explosion-proof cabinets can protect the safety and health of the working environment and the lives and properties of employees when used properly. They are safe as long as they are maintained safely.
