Should you buy a 10kW solar battery in Australia?

A 10kW solar battery can offer substantial long-term savings, increased energy independence, and environmental benefits. Whether you're in Sydney, Melbourne, Brisbane, or Adelaide, the 10kW solar battery price in Australia has become more accessible than ever in 2025, especially with current rebates and incentives.

How much does a 10kW solar battery cost in Sydney?

In Sydney, the price for a 10kW solar battery system typically ranges from \$8,999 to \$17,000. Thanks to New South Wales's Empowering Homes Program, some households may be eligible for interest-free loans up to \$14,000 for solar battery systems. Victorian residents pay around \$8,999 to \$16,500 for a 10kW solar battery.

What is a 10kW solar battery?

A 10kW solar battery is an energy storage system capable of holding approximately 10 kilowatt-hours of electricity generated by your solar panels. Think of it as a large rechargeable unit that captures excess solar energy during sunny days and releases it when you need it most--during evening peak hours or when the sun isn't shining.

How much does a 10kwh battery cost?

In contrast, a 10kWh battery, priced around \$11,000 to \$14,000, is ideal for larger households or those with higher energy demands. While the 10kWh option has a higher upfront cost, it can lead to increased savings over time by reducing reliance on the grid and maximizing the use of solar energy. How long will a 10kW battery power a house?
