What is Saudi Arabia's battery storage program?

The projects mark the first phase of Saudi Arabia's ambitious battery storage program, designed to support its goal of 50% renewable energy by 2030. Each 500 MW facility will operate for four hours, providing 2,000 MWh of total power capacity, said the SPPC, at the following locations:

Where can I find Saudi Arabia tenders?

TendersOnTime provides information on Saudi Arabia tenders, ICBs, RFQ, E Procurement Notices, Municipal Corporation, Ministry Departments, Online E Tenders, and all Government Tenders. Tenderers can find upcoming projects information from Saudi Arabia's Public Procurement Regulatory Authorities, Public Procurement Board, and Procurement Gazette.

Does Saudi Arabia need a storage services agreement?

A 15-year Storage Services Agreement will be signed with SPPC. As part of Saudi Arabia's Vision 2030, the country aims to generate 50% of its electricity from renewable sources. The shift towards solar, wind, and other renewable energy technologies is a key part of this strategy.

How much battery storage will Saudi Arabia be able to deploy?

According to recently reported remarks from energy minister Prince Abdulaziz bin Salman Al Saud from an event held in the Kingdom, the country is targeting the deployment of 48GWh of battery storage by the end of this decade.

The full list, in English, can be seen here, and is replicated below. The tender comprises four 500 MW / 2,000 MWh BESS projects. Successful bidders enter into 15-year storage services ...

Saudi Electricity Company (SEC) awards the contracts for Battery Energy Storage Systems (BESS) having Combined Capacity of 2,500 MW/10,000 MWh, across Saudi Arabia.

Winning bidders will enter 15-year Storage Services contracts with SPPC for four battery storage projects, each of 500MW/2,000MWh output and storage capacity as set out in the table ...

Get the latest update on the 2GW/8GWh battery energy storage system tender in Saudi Arabia. Explore the

shortlisted bidders and their involvement in this exciting project.

In December 2024, SPPC announced the list of qualified bidders. The bid submission deadline is set for 2 June 2025. Each project will be developed under a build-own-operate (BOO) ...

Saudi Arabia recently awarded engineering, procurement, and construction (EPC) contracts for three energy storage systems are estimated to be worth over \$800m. A source familiar with the projects" ...

Cost and Pricing Dynamics. The cost structure of mobile energy storage systems in Saudi Arabia has experienced significant shifts, primarily driven by technological advancements...

This isn't just another infrastructure project; it's Saudi Arabia's turbocharged bid to lead the global energy transition. But who's this for, and why should you care?

Meta Description: Explore Saudi Arabia's battery energy storage price list, market trends, and application scenarios. Discover how lithium-ion and flow battery costs impact solar projects and ...

Standalone energy storage tender price in Saudi Arabia 2030 4 & #0183; The successful implementation of BESS projects will significantly contribute to Saudi Arabia's goal of increasing the share of ...
