How many solar panels can a RevoPower solar trailer run?

The RevoPower Solar Trailer is built with precision and detail in the USA. It can be paired with up to (6) 100W Solar Panels as well as ANY of our solar generators and expansion boxes. When combined with solar panels and a RevoPower solar generator, you'll bring the party with you! Features:

How tall is a solar trailer?

The solar trailer's driving height is just over 10'. With trailer pulling experience, this can be deployed by two people in less than 5 minutes, allowing you to get your powered trailer up and running rapidly and easily. Each Solar Platform can be customized to fit your specific needs.

How many watts of solar power does a trailer have?

The standard 200-watt solar panel and 1800-watt inverter provide essential power, while the optional Power Package transforms this trailer into a boondocking powerhouse with 1,000 watts of solar and a robust 460Ah lithium battery system.

Can I use a solar generator with a trailer?

When purchased with solar panels & solar generator: Totally Plug and Play, no crimps, solders, extensions, or extra wiring needed. Recommended solar generators: Fortress, Fortress II, Fortress Mini/Stealth, or Rebel Solar Generator. We can outfit the trailer with other solar generators, but these are designed for outdoor use.

The RevoPower Solar Trailer is built with precision and detail in the USA. It can be paired with up to (6) 100W Solar Panels as well as ANY of our solar generators and expansion boxes.
