Where is the largest battery energy storage system in Switzerland?

The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's largest.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Why should you choose ESS power storage solutions?

All solutions are fully modular and scalable. High-power reused cells save 196 kg CO₂ per kWh, certified by KIWA. Our ESS solutions are designed for easy installation and seamless integration into new or existing power systems. We offer power storage solutions for industry clients such as energy suppliers.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

"With the launch of B-VAULT FlexGrid, we are introducing a compact, modular, easy-to-install, and regulation-ready platform tailored for Europe's evolving energy landscape," said ...

Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.

Switzerland's energy scene is like a precision watch - every component must work seamlessly. With 75% of its electricity already from renewables*, the Swiss now face a "good ...
