Torch Clean Energy is a clean energy and battery storage developer with extensive experience developing, permitting, designing, and building solar, wind, and battery energy storage projects. ...

"Torch is excited to partner with Fluence to manufacture the energy storage system for our Winchester project," said Travis Haggard, President of Torch Clean Energy.

Torch is a renewables developer focused on the U.S. Mid-Atlantic and Southwest, and has developed and solar more than 1.2 GW of green power assets.

Two prominent players in the clean energy sector, Fluence Energy and Torch Clean Energy, are joining forces to deliver a massive solar-plus-storage project in Cochise County, Arizona.

Fluence Energy, Inc. announced a partnership with Torch Clean Energy to supply the energy storage technology for the Winchester project, a solar-plus-storage facility located in Cochise County, Arizona.

Fluence Energy and Torch Clean Energy have partnered to develop the Winchester battery energy storage system (BESS) in Cochise County, Arizona, US. The project will feature ...

Fluence Energy, Inc. and Torch Clean Energy announced the Winchester project, a solar-plus-storage facility being developed by Torch Clean Energy in Cochise County, Arizona.

Built with lithium-ion batteries, it offers longer performance and more cycles than VRLA batteries. With a fully loaded cabinet shipped to your location and no onsite wiring needed, it saves on deployment ...

Torch Clean Energy is developing the project and Fluence is providing the battery storage technology -- the Gridstack Pro 5000. The project delivery date is expected to be early ...
